Summary/Professional Objective

Full Stack Engineer specializing in the design and deployment of scalable, AI-integrated SaaS solutions. Experienced in the full development lifecycle, including engineering AI-driven Quality Assurance platforms using ASP .NET, Django, React.js, Next.js, MSSQL and MySQL. Combines a Bachelor of Science in Computer Science (AI specialization) with practical skills in Docker, CI/CD, and microservices architecture to drive technical innovation.

Work Experience

Full Stack AI Developer | Bureau, Cairo, Egypt

Aug 2025 – Present

- Engineered a Quality Assurance SaaS model with AI, enhancing automated testing capabilities for B2B clients, reducing test cycle time and increasing test coverage.
- Refactored API code to improve performance from 40 seconds to 10 seconds, boosting overall project performance by 30%.
- Conducted requirements analysis and created a Detailed Requirements Document (DRD) for Rag Company (Rawfi), improving project efficiency.
- Led sprint planning for the team, tracking completed and pending tasks and prioritizing projects to enhance delivery.
- Owned the full development lifecycle of web systems, delivering 5 features that served 60 users and improved satisfaction by 100%
- Architected and deployed a microservices architecture using Django, MySQL, React.js, AI/ML integration, Git, and Docker to support microservices serving thousands of users, achieving a 30% reduction in deployment time.

Full Stack Web Developer Intern | Bureau, Cairo, Egypt

May 2025 – Aug 2025

- Built and deployed robust web applications that handled x concurrent users and improved page load speed by 70%.
- Leveraged React.js, .NET Core, and SQL to develop features that increased user engagement by 40%.

Freelance Full Stack Developer

- **Jalsy Therapy (Dec 2024 – Jan 2025):** Developed a full-stack booking platform that increased booking efficiency by 30% for users. Debugged and resolved logic bugs using Visual Studio Debugger, enhancing project performance dynamically by 10%, earning client compliments.
- **Synecad (Nov 2024 – Dec 2024):** Integrated Stripe API into a wallet platform, processing transactions and reducing payment failures by 100%.
- **ZA-place (Oct 2023 – Nov 2024):** Engineered an LMS that served 150 students, increasing enrollment by 30% and processing Stripe payments with a 85% success rate

Internship Experience

- **Full Stack Web Developer Intern | Xceed (May 2024 – Aug 2024):** Analyzed enterprise web systems and created training tools adopted by 2 teams, reducing onboarding time by 65%
- **Web Systems Intern | Heidelberg Company (Aug 2023 – Dec 2023):** Observed internal web systems and documented workflows that informed process improvements for 3 departments, decreasing issue resolution time by 45%. Developed a ticket support application using Angular 18.0.0 and TypeScript, improving employee-to-supervisor issue escalation efficiency by 50%.

Education

Bachelor of Science in Computer Science (Artificial Intelligence)

Galala University, Egypt | Jun 2025 | GPA: 3.18/4.0

Relevant Coursework: Data Structures, Algorithms, Machine Learning, Web Development, AI.

Skills

Languages: Python, JavaScript, C#

Frontend: NextJs, React.js, Tailwind CSS, HTML5, CSS3, Angular

Backend: Django, .NET Core

Databases: MySQL, SQL, MongoDB, Firebase

Cloud & DevOps: AWS, Azure, Docker, Git, CI/CD

API & Security: RESTful APIs, Stripe API, JWT, OAuth

Methodologies: Agile, Scrum, TDD, Problem Solving

Projects

- **AI-Integrated Learning Management System (Graduation Project, Jun 2025):** Developed an LMS with AI features, enhancing learning outcomes for users, increasing course completion rates by 78%. (React.js, .NET API, MSSQL, Django, AI/ML)
- **Protocol System (University Project, Dec 2024 – Apr 2025):** Digitalized university protocols, improving efficiency, cutting processing time by 85%. (.NET MVC, SQL)
- **Galala Medical Examination System (University Project, May 2023 – Nov 2023):** Built a system for managing medical tests for students, reducing test turnaround time by 87%. (.NET MVC)

Certifications & Awards

Certifications: Kaggle (Intro to Programming, Python), Coursera (Advanced ML, Supervised ML), Huawei (HCIA-AI).

Awards: ECPC (Problem Solving, Finalist), Climate Change Competition (7th, 2nd), Huawei Innovation (Best Software Project).

Volunteer Experience

- **Huawei Ambassador (2022 – 2023):** Facilitated 50+ student registrations for technical programs.
- **Technical Report Member | IEEE (2022):** Contributed to technical report creation that was referenced by 5 publications
